TIGER SHRIMP

RAW OR COOKED

HEADLESS OR PEELED AND DEVEINED

PRODUCT OVERVIEW

Black Tiger shrimp offer chefs unparalleled versatility in the kitchen. Black Tiger shrimp (*Panaeus Monodon*) have distinctive stripes, a crisp bite and mild flavor that complements every cuisine. For premium headless, peeled and cooked shrimp, Black Tiger shrimp deliver quality AND value.

PROCESSING

Black Tiger shrimp are harvested in farms, cleaned, washed, iced and transported to the processing plant. The raw material is beheaded, hand peeled and converted to its final form. Next it is treated, frozen, glazed, inspected and packed. All products are checked by a metal detector.

FEATURES AND BENEFITS

Farm-raised Black Tiger shrimp are processed in multiple forms to provide versatility for all applications. Headless Shell-on shrimp cooked in-shell enhances natural color. Peeled and Deveined shrimp reduces labor and improves yield. Cooked shrimp offers ready-to-eat, quick preparation. Black Tiger shrimp provide consistent uniformity, accurate counts, and 100% net weights.
